[linkedin](#)

SUMMARY

Detail-oriented **Frontend Developer** with experience delivering **20+ web projects** and completing **100+ development tasks**, specializing in building responsive and high-performance interfaces. Skilled in **HTML, CSS/Sass, JavaScript**, and modern frameworks such as **Vue.js, Quasar, and React**, with a strong focus on **clean code, usability, and scalability**. Currently working as an **Associate IT Officer 2 - Level 2** at **PT Bank Rakyat Indonesia (Persero) Tbk**, developing enterprise-level web applications within a **microservices architecture** using **Vue.js, Quasar**, and **Protoc Golang** for API integration. Trusted as a **mentor for frontend interns**, providing hands-on guidance to help them meet **real-world development standards** and adopt **industry best practices**..

SKILLS AND ABILITIES

- | | | |
|--------------|--------------|--------------------------|
| - Vue.js | - Quasar | - Git |
| - React | - Typescript | - Laravel |
| - Javascript | - SASS/CSS | - Golang (Protoc / gRPC) |

EXPERIENCE

[PT Bank Rakyat Indonesia \(Persero\) Tbk](#), Jakarta

Sep 2025 – Present

Associate IT Officer 2 - Level 2

- Develop and maintain responsive, modular, and reusable frontend components using **Vue.js** and **Quasar Framework**.
- Integrate frontend applications with backend services using **Protocol Buffers (Protoc)** and **Golang**.
- Collaborate with backend, UI/UX, and DevOps teams within a **microservices architecture**.
- Participate in **Agile Scrum** workflows, including sprint planning, daily stand-ups, and retrospectives.
- Ensure **cross-browser compatibility** and **optimized performance** for all user interfaces.
- Implement **API integration** with gRPC and REST endpoints.
- Conduct **code reviews**, refactoring, and improvements to enhance maintainability and scalability.
- Contribute to **CI/CD pipelines** for continuous integration and deployment.
- Work closely with product owners to translate business requirements into technical implementations.
- Maintain consistent **UI/UX design standards** across web applications.

[ORDO Apps](#), Surabaya

Aug 2024 – Sep 2025

Frontend Developer

- Led Development of 20+ Projects & 100+ Tasks: Successfully translated product and design

requirements into high- performance, scalable user interfaces using modern web standards and frameworks, delivering consistent and reliable features across various business domains.

- **Mentorship Role:** Selected as an Internship Mentor, guiding and onboarding frontend interns. Provided hands-on coaching in coding best practices, UI/UX implementation, and team workflows—helping them adapt to real-world development environments.
- **Technical Ownership:** Conducted thorough technical assessments and impact analyses to support both product and engineering decisions, ensuring alignment between UI feasibility and business goals.
- **Clean, Maintainable Codebase:** Developed, tested, and debugged responsive web products while maintaining clean, reusable, and high-quality frontend code that streamlined future development.

RedMed, Surabaya

December 2023 – July 2024

IT Support

- **POS System Development & Deployment:** Played a key role in developing and implementing the Point-of-Sale (POS) software, tailored to RedMed's operational needs. Also responsible for setting up cashier hardware installations across multiple outlets to ensure seamless transactions.
- **Landing Page Development:** Designed and developed the company's landing page, contributing to RedMed's digital presence and user accessibility.
- **Operational Issue Resolution:** Actively identified and resolved bugs and inefficiencies in both software features and day-to- day operations, improving system stability and user productivity.
- **Proactive Feature Optimization:** Collaborated with teams to analyze workflows, spot non-functional or inefficient features, and implement practical improvements that aligned with evolving business needs

EDUCATION

University of Surabaya – Surabaya, Indonesia

2024

B.Sc. Informatics Engineering

KEY OF ACHIEVEMENT

- Developed and deployed high-performance banking web modules at **PT Bank Rakyat Indonesia (Persero) Tbk** using **Vue.js, Quasar, and Protoc Golang**, enhancing internal dashboard efficiency and modular scalability.
- Led high-impact branding and web projects for **DayBrand Studio, Famos, and Iware**, trusted from **UI slicing to production deployment**.
- Implemented **advanced animations (AOS, custom JS)** and optimized API integrations, driving up to **40% higher engagement** on campaign launches.
- Mentored and onboarded **5+ frontend interns**, guiding them in **Laravel, React, Bootstrap, Git**, and real-world project best practices.
